Dear brethren,

We send you warm greetings in the precious name of our Lord Jesus Christ. Knowing that during this time of the year and season, you are experiencing some snow in other parts or states of your country. We pray for your safety and to be spared from snow disasters.

In Zimbabwe, other provinces are under serious starvation. Some families are reported to be surviving on a kind of tree roots which they dry, grind and make porridge to feed on. Yes, the land is dry and has very little rain fall, partially in the Northern Region. The weather is hot being caused by the ELNINO. Generally, Zimbabwe is under shortage of food. With the dwindling and instability of our Economy, the general public are the most affected as far as the shortage of necessities is concerned.

The Lord's work at Juru is on its normality. Our usual activities continue to be the same. We enjoy meeting together and having our christian fellowship. Yes, we have lost a member who moved to South Africa in search for greener pastures. As for Office activities, we have had six (6) One on One Bible Studies and five (5) counselling sessions with (5) families. Oh! Oh! it is quite exciting to note that people have need of help in many areas of life.

Margaret and I are doing well. May the love of the Lord fill your hearts as you labour in His vineyard.

In the love of the Lord,

Noah and Margaret.
