January 2020

News from EBNESR:

Thirteen resident students are enrolled in full time study for their bachelor degrees. These students are from Belem, Campinas, SP, Bolivia, Pernambuco, Bahia and Sergipe. Yes Bolivia. Benjamin is pictured to the right.

Our EBNESR academic semester began with two intensive courses given by Howard Norton (Searcy, AR) and Enio Latorre (Bauru, SP). Our classes at night are growing. The morning classes started just last year are full. And you can see below the popularity of our intensive classes once a month.

Want to listen to the Bible and good Bible lessons in Portuguese. The Sunset International Bible Institute is making it possible through the solar player they are distributing free of charge here in Brazil. No worry about batteries as they are solar powered and are tough designed to last 10 years.

Church NEWS

The 34th annual northeast Brazil workshop and lectureship was hosted by the church in Santa Cruz do Capibaribe, PE. 350 attended, from not only northeastern Brazil but from the USA and Belo Horizonte and Sao Paulo, Brazil. The theme was "Create In Me a Pure Heart". 39 congregations participated.

Group of speakers and participants headed to the lectureship. Randy speaking.

I began teaching a "Let the Bible Speak" course on Tuesday morning, Jan 28 with 36 present for the first class. We presently have 3 classes going and they should all end the same week. They will all be challenged to live the simple Christian lifestyle and called on to make a commitment to Christ. We are expecting many such commitments this year.

God willing, we will begin a second service around 4 in the afternoon in March. We have space for 100 chairs and most Sundays they are filled. We will need additional space when this year's conversions begin. We are planning the second service already.

Blessings

Randy and Kathy Short
